ASSEMBLY MOTIONS

Association Générale des Étudiant.e.s en Psychologie de 1er cycle de l'UQAM (AGEPSY-1 UQAM)

Considering that an campaign on the remuneration of internships has been going on for many years, particularly in psychology and education, and that it has more recently extended to all programs including internships;

Considering the relevance of co-ordinating the various programs and groups advocating for the remuneration of all internships, in all disciplines and all levels of study, in order to put forward and expand this claim;

Considering the highly strategic position of psychology students in the fight for the remuneration of all internships;

Considering that the AFESH, the AETS, the ADEESE participate in the CUTE campaign for the remuneration of internships;

Considering that unpaid internships, which mainly characterizes predominantly female versus male-dominated fields of study where internships are paid much more often, is part of an unequal and oppressive sexual division of labor which confines certain tasks (education, care, social work) to the category of non-productive activities and contributes to the exacerbation of invisible work as well as economic and social exploitation.

It is proposed:

That AGEPSY-1 publicly supports the CUTE campaign for the remuneration of all internships;

That the AGEPSY-1 participate in the Montreal Coalition for remuneration of all internships.

That AGEPSY-1 disseminate the information related to the Global Interns Strike Day on February 20th and the March 8th strike for the remuneration of internships.

Adopted on January 24, 2018

Considering that members of the National Assembly do not have a sufficient understanding of the situation for interns;

Considering that the reality of interns is different from one field of study to another;

Considering that it is important to put interns' voices forward;

Considering that the National Assembly foresees changes to the Labour Code, and that the Minister of Higher Education has committed to study the issue of unpaid internships;

Considering that AVEQ can offer human resources, media support, and finances to organize the logistical needs for an interns' forum;
Resolved that the coalition participate in the creation of an interns' forum in Quebec, in collaboration with AVEQ;
Resolved that AVEQ invite representatives of political parties, with the goal of informing them so that they can clarify their positions on the matter.
